Blockchain Game Platform

Written by: Leandro Alves

09rd January 2019

ABSTRACT

Zitoken platform is a blockchain game platform, on which is possible to play different games such as trading games and strategy games using ZITOKEN ZIT (our utility token). Platform is been designed to support a wide range of games developed on Blockchain Tecnology, such as trading games and strategy games .

Initially the platform will support only games developed on Ethereum Blockchain, but gradually will support others protocols .

Community/users can fund their accounts using ZITOKEN (ZIT), our token is required to get all services on our game platform.

TABLE OF CONTENTS

1. About Zitoken Platform

Zitoken platform is a blockchain game platform, on which is possible to play different games such as trading games and strategy games using ZITOKEN ZIT (our utility token). Platform is been designed to support a wide range of games developed on Blockchain Tecnology, such as trading games and strategy games .

Initially the platform will support only games developed on Ethereum Blockchain, but gradually will support others protocols .

Community/users can fund their accounts using ZITOKEN (ZIT), our token is required to get all services on our game platform.

1.1 Zitoken (ZIT) - Utility Token

Zitoken (ZIT) is our utility token and fuel on our platform, community can use it to fund their accounts to play all games on the platform and to participate at our official events.

Zitoken (ZIT) is already available to buy on couple of exchanges and soon we plan to add our utility token on more exchanges.
